**UNITY LODGE, NO. 8, K. of P.**

## THE LATEST EXCITEMENT.

San Francisco is not without an excitement. First it was the Mexican annexation scheme; then the great French novel fraud; now it is Captain Waddell, the pirate, who is in trouble. The narrative as it runs reads as follows: "Waddell was a Lieutenant Commander in the Confederate army, and had command of the rebel cruiser Shenandoah, which did such havoc among the whalers and merchantmen on the Pacific. Since the closing of the war he had no occupation up to the time when the Pacific Mail Company sought him out and offered him the command of the City of San Francisco, which position he accepted. A few days ago he brought the vessel into port, after a quick passage. The departure of the ship for Honolulu and Australia was announced for the 8th instant, and a few days ago it was stated that Captain Waddell is not to go out in the vessel. The substitution of some other officer as commander was for the time being made compulsory on the company. It was known that it would not be safe for the Captain to take the vessel to Honolulu, as it was certain he would be arrested and possibly sentenced to imprisonment for life or condemned to death. The occasion of this was that in March, 1865, the closing year of the war, Waddell with the Shenandoah, while on its mission to destroy the commerce of the Northern States, cruised around the island of Panipette in the Northern Pacific Ocean. In April the Shenandoah entered the harbor, and as a ruse hoisted the American flag. Four vessels lay at anchor and they at once flew the same colors. Waddell immediately lowered his false colors, raised the flag of the Southern Confederacy instead, and opened fire on the four whalers, destroying them. It transpired later that three of the vessels were owned in New Bedford, Mass., and other was the property of subjects of the Hawaiian Kingdom, for which act Waddell is anxiously looked for by the Hawaiian authorities. In view of this fact the Attorney General of the Hawaiian Kingdom, now in San Francisco, and the officers of the Mail Company, advise Waddell not to go to Honolulu until the affair is settled. He was deeply affected when informed that he would be superseded in the command of the steamer. In the meanwhile he is to temporarily take Captain Lachlan's place as Superintendent of the Pacific Mail Steamship Company's dock in this city."

## BANK OF CALIFORNIA AFFAIRS.

Anything pertaining to the affairs of this institution is of more interest than common. In accordance with their previous decision, the Directors of the Bank filed new articles of incorporation yesterday afternoon, thereby coming in under the provisions of the California Code governing corporations. An assessment of ten per cent. on the Syndicate Guarantee Fund, amounting to \$7,865,000, has been levied, payable December 10th, presumably for the purpose of meeting the month's notes given in settlement of claims of large creditors at the time of reopening the bank. After the reincorporation has been effected an assessment of 10 per cent. on the capital stock of the bank will be levied for the purpose of making good the capital, as required by the provisions of the code. The impairment of the capital was in the neighborhood of 70 per cent., to repair which 10 per cent. assessments will be levied from time to time until the capital is made good. We have every reason to believe that the Bank of California will soon be as solid a moneyed institution as any on the Coast.

CHARLES FRANCIS ADAMS is named as the best man for orator of the Centennial. The son of one President, the grandson of another and a candidate for President himself, are the qualifications he possesses! And aside from this—and that is the main thing—he is competent.

## NEVADA MINING NEWS.

(From the Gold Hill News of Thursday.)

**Ophir.**  
The hoisting works building, machinery shop, carpenter and blacksmith shops are all completed. The new hoisting engine is working finely. Draining the water from the lower levels by means of tanks was commenced to-day. It is the expectation that everything will be in complete readiness to regularly resume the extracting and shipping of ore to the mills, the same as before the fire, by the 10th of December.

**California.**  
Sinking the winze below the 1550-foot level is still going steadily ahead, the bottom in good ore. The north drift on the same level is being steadily advanced, the face in fair ore. The other levels of the mine are kept in good repair while waiting for the completion of the building for the Consolidated Virginia hoisting-works.

**Crown Point.**  
Daily yield, 425 tons of ore. The ore stopes are looking well and continue to afford a supply of ore sufficient to keep the mills steadily running up to their full working capacity.

**Belcher.**  
Daily yield, 440 tons of ore. The ore stopes are looking more than ordinarily well, and the general appearance of the mine shows a decided improvement.

**Woodville Consolidated.**  
The control of this mine has passed into the hands of the owners of the Justice mine. All work has been suspended for the present, the workmen discharged and the mine virtually shut down for the present.

**Justice.**  
The ore at the 600-foot level shows still further improvement in both quality and quantity, and at the 800-foot level the main ore-body is evidently reached by the south drift, assays of from \$150 to \$200 being obtained. The extent of the ore at that point is not, of course, ascertained as yet, and will not be for some time, but certainly the present prospects of the mine are very flattering. It is well worked and managed.

**Julia.**  
The bob pit and pump station at the 1600-foot level, is finished, and sinking the shaft resumed. The main southwest drift, on the 1500-foot level, is in 149 feet, the face in soft, easy working material. The main southwest drift, on the 1400-foot level, is steadily advancing, the face in quartz and porphyry, with a considerable seepage of water coming in. Everything working well and good progress being made at all points.

**Consolidated Virginia.**  
About 100 tons of ore per day is being hoisted through the Gould & Curry shaft, and crushed as fast as taken out, which will much more than pay the running expenses of the mine. Sinking the C. and C. shaft is making the usual good progress, the rock in the bottom working finely and the flow of water not interfering in the least.

## THE NOTE SYSTEM.

We extract from the San Francisco Bulletin mention of what promises to be an important innovation upon the long established custom of money-changing on this Coast. If it proves a success in California, its adoption in our own State will be sure to follow, so closely interwoven are our interests:

Several attempts have been made to formally introduce the note system in this city. It may seem strange to Eastern people that such a practice has not already found a place here. It is known that the giving of notes for bills of merchandise is quite common in the Atlantic States, and is found to work well. It utilized what would otherwise be dormant capital. The agitation of the question here has not been altogether useless. The fact has been demonstrated that the note system must be introduced gradually. No formal resolutions of organized bodies can make the system universal or popular. The work must be the result of individual effort. A beginning has already been made, and several firms of this city have for some time exacted notes whenever and wherever they could. Others will adopt the same course on and after the 1st of January. We know of several foreign importing houses who intend to exact notes for all bills on the turn of the year. The Centennial year is a very proper time for inaugurating a general movement of this kind, and the work may very appropriately begin with the importers. A general agreement on their part will soon lead jobbers to adopt a similar course, and the result would be a great addition to the business capital of the city. The general adoption of the system might temporarily restrict the volume of trade, but it would immediately place it on a healthier basis and raise the standard of mercantile honor. With the best safe-guards that can be introduced, there will be enough of ver-trading and enough of swindling. There is no reason why importers should furnish the bulk of capital for city jobbers, nor is there any reason why the city jobbers should so largely carry interior merchants from one year to another.

A man of honor respects his word as he does his bond.

## NEVADA STATE NEWS.

Senator Shepherd of Elko county has recently discovered a rich vein of coal.

The annual meeting of the Ophir Mining Company will be held on the 15th instant.

The Washington Herald says Senator Sharon has secured a suit of rooms there for the winter.

Henry Piper, ex-Assemblyman from Storey county, and brother to Senator John Piper, of theatrical fame, was united in the bonds of wedlock on Sunday last, at Virginia. Miss Frederika Martins is the lady of his choice.

The Belcher and Crown Point Companies have entered into an agreement whereby the new air shaft is to be sunk jointly by the two mines and is to be made a drain as well as air shaft.

The hoisting works of the Ophir are already partially in operation, and when the Consolidated Virginia works start up, which will be in a very few days, it will be ready for full and regular work, square, practical mining business.

Both the Imperial and the Justice show continued improvement in their rich ore developments.

A Raymond & Ely investigation is talked about. It is asserted that the management ordered a \$3 assessment when there was something like \$300,000 in hand.

The up train from Palisade was thrown from the track six miles from Eureka Thursday evening. The spikes had been withdrawn from a rail by parties unknown. The locomotive jumped the track, ditching the entire train. But four passengers were aboard and none were injured. It is thought the act was planned by parties intending to rob the express of a large amount of money.

There was an extensive cave in the Richmond Consolidated mine at Eureka Thursday morning in the abandoned portion of the works, extending from the second to the fourth levels. Two miners named James Martin and B. Treloar, engaged in running an air shaft, were caught in the cave and buried. Their bodies have not yet been recovered.

A petition very numerously signed, requesting Senators Sharon and Jones and Representative Woodburn to urge upon Congress an appropriation of money for the erection of a building in Carson for the accommodation of the Federal Courts, Land Office, Post Office, etc., is circulating in that town.

## LATEST NEWS ITEMS.

General Babcock asks the President to order a Court of inquiry to investigate the charges made against him in the whisky ring trials in St. Louis.

The East is full of speculations in regard to the probable reason for putting the navy on a war footing.

The failure of the Bank of America in New Orleans is a bad one.

The New York Chamber of Commerce is moving on Cuba.

Bismarck approves of the British purchase of the Suez Canal.

Gen. Kaufman asks the Czar for fifty thousand men, with artillery, to carry on the war with Khokand.

The report of the Controller of the Currency on gold banks is telegraphed.

Austria, Prussia and Russia are reported to be in accord on the Eastern question.

A new bank has been started in Los Angeles.

Turkey protests against Montenegrins taking part in the Herzegovinian insurrection, and the great powers indorse the protest.

Charles O'Connor is still breathing.

A dispatch announces a victory for the Russians in Central Asia and reports dreadful loss to the enemy. The names furnished by the dispatch are calculated to kill or make speechless any careful reader.

Dreadful tales of suffering and of Turkish atrocities are telegraphed from Herzegovina. A Turkish garrison at Goronske has surrendered.

Specimens of grasshoppers hatched out in Minnesota recently look very fine, and the prospect of a luxuriant grasshopper crop in that State next year is very cheering.

On the second Monday in December the United States Senate will have to take up and dispose of the case of P. B. S. Pinchback, of Louisiana, who is using a pretty strong argument for success. He declares that if he is not admitted to a seat in the senate a Democrat will be elected; but there is likely to be enough anti-Pinchback Republican Senators, with the Democrats, to kick this sublime rascal out of the national capital.

JUDGE R. A. HILL of the United States Court at Jackson, Miss., deserves a monument of gold. In a recent case he discharged nearly every man on the Sheriff's panel because of inability to read and write. He claimed that a man who did not possess these two qualifications was not fit to judge of another's guilt or innocence.

THE President's message this year will be much longer than usual. It will contain 18,000 words, and on account of its great length, it will not be ready to send into Congress until Tuesday evening. The House should elect a Speaker on Monday.

Ten more monitors are to be put in order for battle, and the navy on foreign stations is called home so as to be prepared for any emergency. Beneath all this smoke there must be some fire, and whether Spain or Mexico is the cause we shall soon know.

STOPHER & BRADY.

## SPRING WAGONS.

KENT & WEEKS

Sole Agents for the Celebrated

DAVIS BROS. PATENT

COMBINATION SPRING PLATFORM.

For the State of Nevada.

The Best Carrying, Easiest Riding and

Most Durable Wagon in Use.

The best carrying because of perfect Springs,

and bearings at proper points to give the greatest

strength.

Easiest riding. A Wagon carrying 1500 lbs.

rides as easy for one man as the best Phaeton.

Most durable, because the combination of the

Springs is such as to give perfect elasticity to

the gear, thereby entirely obviating the sharp

side motion and consequent strain on the

Wheels and other parts of the Wagon, allowing

the Wagon to pass over all irregularities of the

road without jolting or cracking the box, or

breaking, or inconvenience to the rider. The

Springs of the circle, a necessity with all other

Platform Wagons, is entirely obviated, allowing

the Wagon to follow the road without crowding

the team from side to side.

Our Wagons are manufactured from choice

material, by the best mechanics, thoroughly

finished, with fine finish and trim, and warranted.

If you want a Family Wagon, a Peddler's

Wagon, Market wagon, or a Wagon for any of the

purposes for which the Platform or Demorest

Wagon is generally used, see and try these

Wagons and you will use no other.

FOR SALE BY

KENT & WEEKS,

Cor. Plaza and North Virginia Sts.,

RENO, NEVADA.

OUR TOWN ROUTE.

Mr. Chas. Thurston will hereafter have charge of the town route of the JOURNAL, delivering the paper to subscribers, and to him alone will they be responsible for payment from and after this date. All persons owing to the present time will please call at this office and settle their accounts. Mr. Thurston will deliver the paper promptly, and no one will have cause for complaint on this score. If you wish the JOURNAL at your place of business or residence give him your order.

**OUR POTATOES.**—The Dutch Flat Forum has the following item of interest which appeared in its last issue: "Irish potatoes, raised near Reno, Nevada, are the best that can be had in this market. Messrs. Swenson & Chadwick have placed a nice little package at our disposal, for inspection and our verdict, which is about as stated. They have just received 100 bags, which are going off very fast. Go and get some."

**THEATER TO-NIGHT.**—If you wish to pass an agreeable evening pay Dyer's Hall a visit to-night, and see John Jacks, the popular actor, and the beautiful, accomplished and versatile actresses, the Firmin Sisters, who will appear in a most attractive, dramatic and musical olio. The entertainment will conclude with the new musical and protean extravaganza, entitled "Fun on a Ranch."

**NEW AND FRESH.**—Walker, Knust & Co., dealers in groceries and provisions etc., have as good a store as any in the State, and are very pleasant gentlemen to deal with. Their prices are as low as they can well be made and their goods are new and fresh.

**SERENADE.**—Thursday evening a brass band, a snare drum, a pair of cymbals, accompanied by half a dozen young men, broke loose in front of our office, and "ser-naded" us. After one tune they started out on a tour of the town. They meant well.

**Who Will Profit?**—The first lesson a business man should learn is the value of printer's ink. Let him be ignorant of that and all the knowledge he possesses will be of little value to him.

**BUSINESS.**—Judge Wright came down from Carson yesterday on business—to draw his salary. He earns it, does the Judge.

**A SIMPLE REMEDY.**—A New Hampshire journal makes known to the public that the speediest way to cure the epizootic and make a horse thoroughly happy is to give him onions. In proof whereof the case of a Portsmouth horse is cited, which had a severe attack of the disease, and his owner placed half a dozen onions in the crib with his regular food. The horse tackled three of the onions immediately, and by the time he had swallowed them began to cough and sneeze and prance about, appearing quite indignant, and refusing to touch the remaining snips. For full five minutes he wept at the nose, and then—he was a cured horse. He has not had a cough, a sneeze, nor any symptom of the epizootic since, but he did not have the courage to eat the onions remaining in the crib the next day after the cure.

**RIOT & BRYAN.**—The card of this firm, stock and gold brokers, of San Francisco, appear in this issue. They buy and sell, strictly on commission, mining stocks, and all other securities dealt in at the Stock Boards. These gentlemen are well known in Reno, and should any of their old friends feel like favoring them with their patronage, they will make the best bargains possible.

**MCGINLEYS.**—The McGinleys will appear at the Reno Opera House next Monday evening for which occasion an extraordinary bill has been prepared and will be presented. Mr. Frank H. Chase has kindly volunteered for the occasion and will appear as Charles Paragon, in Perfection; or the Maid of Munster.

**GRANGERS' ELECTION.**—The members of Alfalfa Grange, No. 1, P. of H. are requested to meet at their Hall, on Saturday, December 4th, at 1 o'clock sharp, at which meeting officers will be elected for the ensuing year. A full attendance is requested.

**PARDON APPLICATION.**—We learn that an application will soon be made to the Board of Prison Commissioners for the pardon of Jack Morrison, the Susanville stage robber, who is now serving out his term of ten years.

**BEAUTY.**—On Sunday evening Rev. G. W. Fitch purposes commencing a series of lectures. The theme on this occasion is to the young ladies, "How to be Beautiful." The young men will have the one following.

**PIONEERS.**—Barnett & Bro. are the pioneer dry goods and clothing merchants of Reno. They always carry an immense stock of goods of all kinds, and sell them as low as the lowest.

**SCARLET FEVER.**—The two little children of B. B. Norton are down with the scarlet fever. We hope the disease will not attack the other children, and that Norton's boy and girl will soon recover.

**DANCING.**—At Dyer's Hall, this afternoon at 1 o'clock, Pro. Honigberger will commence his class in dancing. All who wish to learn the graceful accomplishment will do well to be on hand.

**RABBIT.**—D. H. Flynn, of the Capital Restaurant, is out in a card, offering the public some Welsh rabbit, and other choice dishes for noon lunches or night suppers. See his ad.

**RAIN.**—Too much of a good thing—we want a change for there has been sufficient rain to do the country for a while at least.

**HERPES WEEKLY** gives an illustration of the proposed statue of the Goddess of Liberty, which it is proposed to set up next year on one of the islands of New York harbor, in commemoration of the establishment of the American republic. The idea was conceived by a Frenchman, and it is proposed to carry it out by contributions from both countries. The statue is to be of bronze, more than one hundred feet in height, standing upon a pedestal of the same elevation suitably decorated with allegorical bas-reliefs upon the pedestal, representing the progress of the United States. The model has been approved by a French committee, under whose auspices the work will be carried out. At night streams of light will ascend from the figure, which can be seen by vessels entering the harbor and at a distance at sea.

**A GOOD PLACE TO BUY RUBBERS.**—Those in need of rubber boots would do well to call and examine John Sunderland's stock before purchasing elsewhere. Look at his prices: Hip boots for \$5 00, Knee boots for \$4 00; boy's knee rubbers, \$3 00; youth's knee rubbers, \$2 00; ladies' knee rubbers, \$1 50; men's Arctic, \$1 50; ladies' Arctic, \$1 25; ladies' gum shoes, .75; children's, .50, and everything else in proportion. A full and complete stock of boots and shoes always on hand. First class boots and shoes made to order. Repairing neatly done.

**Mr. JACOB PRESCOTT**, our well-known dry goods merchant of this place, has again gone below after a new stock in his line and we have no doubt this will be interesting news to the ladies.

**REMOVED.**—The Misses Vance are now located on Virginia street, next door to the photograph gallery. They will receive at their dressmaking establishment and make to order in the latest styles, all kinds of plain and fancy sewing.

**NOTICE.**—Mr. Nels. Greenman is no longer our authorized agent. Our patrons will govern themselves accordingly.  
 So Lee & Co.
